Time for Back-to-School Immunizations

East Wenatchee, WA –Summer is almost over and kids are heading back to school. Are your child’s immunizations up-to-date? Here is an easy way to get your child’s immunizations records and find out.

MyIR allows you to access your child’s vaccine records and print a Certificate of Immunization Status.

Can’t Afford the Fee? No Problem!

It’s the Law! Through the age of 18 years, by law no child can be turned away from getting a recommended vaccine from their regular healthcare provider because the family cannot pay the fee.

Teenager at Home?

Ask your child’s healthcare provider about the meningococcal and HPV vaccines. They are recommended, along with Tdap, for all adolescents.

Required Vaccines for Schools and Licensed Childcare

For a complete list of the required vaccines for school and licensed childcare, please visit the Washington State Department of Health website.
