Septic System Design:

If your project can be approved for a gravity drain field septic system based on a soil/site evaluation, please refer to the handout for system requirements or attach a gravity drain field design package by a licensed designer/engineer.

<u>Pressure septic systems and all repairs</u> must be designed by a state licensed designer or professional engineer:

□ Design Package Attached

Drinking Water	Supply: Requi	ired to submit	with application	01
-----------------------	---------------	----------------	------------------	----

□ **Public** (three or more homes)

<u>System Name:</u>

(New Construction- Attach copy of Water Availability Checklist from Water Purveyor)

- ☐ **Private** (serving one to two homes)
- □ New Construction projects to determine potable water adequacy (RCW 19.27.097) please attach copy of:
 - □ Well Log or Pump Test
 - □ Nitrate and Coliform bacteria lab test results
 - □ Joint Use Agreement (IF shared well with neighbor
 - ☐ Restrictive Covenant (IF well is within 50' of property line)
 - ☐ Water Right (IF drawing water from a lake/stream)
 - □ <u>Septic System Repairs:</u> If we have no record on file of your well water source please indicate the following information about your drinking water source:
 - Dug Well
 Surface Water
 Spring
 Drilled Well
 DOE tag #):
 - Shared Well with neighboring property(s)

APPLICANT'S STATEMENT: I will comply with the rules and regulations of Chelan-Douglas Health District for on-site sewage systems in the installation and maintenance of this system. I understand that any alterations of building size or location, misrepresentation or concealment of material fact, or any filling or grading in or below the drain field area may invalidate any approval granted for this application. In the event my permit is denied, I understand I have the option of appeal. I also understand that additional inspections will be required where any part of the installation is performed by someone other than a person licensed under the above regulation.
