THREE (3) ADDITIONAL DEATHS FROM COVID-19

EAST WENATCHEE – Chelan-Douglas Health District (CDHD) reports three additional deaths from COVID-19. This brings the total number of deaths in Chelan County to 21, and seven (7) in Douglas County. All deaths were Chelan County residents: two (2) females in their 70s and 80s and one (1) male in his 80s. The Health District’s total COVID-19 deaths is now 28.

The Washington State Department of Health constitutes a COVID-19 death as a death occurring among those who have a positive COVID-19 test who did not die in a homicide, suicide, or accident (with the exception of accidental deaths that explicitly list COVID-19 on the death certificate). The death certificate must also include COVID-19 or COVID-like terms (such as respiratory distress, pneumonia, respiratory failure, hypoxia, viral illness, or Severe Acute Respiratory Syndrome (SARS - with no other strain specified) as a cause or contributing factor to the death.

CDHD would like to remind everyone of the importance of all public health precautions during the COVID-19 pandemic. Anyone can have COVID-19 and not know they are contagious. COVID-19 is easily spread to close contacts, friends, family and loved ones before a person knows they are unintentionally spreading the virus. Please do your part to prevent the spread of COVID-19, continue to mask-up, social distance and avoid group gatherings.

Be a protector, not an infector! For more information, visit www.cdhd.wa.gov/covid-19 and follow CDHD on [Facebook](#) & [Twitter](#).
