HEPA Portable Air Cleaner Distribution for Qualifying Persons

The Chelan-Douglas Health District has a limited quantity of HEPA Portable Air Cleaner units for distribution to “At Risk Populations” in our communities.

The focus of distribution will be people with no operating HVAC (heating, ventilation or air conditioning) units at their home AND are at risk of health complications due to wildfire smoke inhalation.

The at risk health conditions include:

- Lung disease (such as asthma, COPD or any other diagnosed respiratory condition)
- Heart disease
- Diabetes
- Pregnant women
- Persons over 65 years of age

If you, or someone you know qualifies for one of the no-cost HEPA Portable Air Cleaners, please contact the Chelan-Douglas Health District at imt.lsc@cdhd.wa.gov.

The contact information below must be completed and accompany the email.
